

ANTIMICROBIAL RESISTANCE

Combating a serious threat to public and animal health

Cambridgeshire and
Peterborough
Clinical Commissioning Group

EXTRAORDINARY MEMBERS EVENT

Huntingdon Race Course 12.30pm-3pm

SAVE THE DATE 12TH December 2018

Cambridgeshire and Peterborough CCG is one of the highest prescribers of broad spectrum antimicrobials in the Country. In order to support a reduction in inappropriate prescribing of broad spectrum antimicrobials, the CCG has secured the National Project Lead for antimicrobial resistance along with a Consultant Medical Microbiologist to deliver a session to support appropriate antimicrobial prescribing within the CCG.

Elizabeth Beech. NHS Improvement National Project Lead: Health Care Acquired Infections and Antimicrobial Resistance

Dr Nick Brown. Consultant Medical Microbiologist CUHFT.

Antimicrobial Resistance is a National and Worldwide threat and high priority within the CCG. The event supports the Quality and Engagement Framework Medicines Optimisation Objective and will contribute towards the system wide strategy to reduce inappropriate antibiotic prescribing, please ensure a Clinician from your Practice attends.

Final Agenda: to Follow.
