The RCGP and Cancer Research UK invite you to attend a **free one-day workshop** focused on the role of primary care and cancer matters. This workshop will consist of a keynote speaker, Dr Richard Roope (RCGP and CRUK Clinical Champion for Cancer) and local cancer clinical leaders.

There will be opportunities for group work, networking and reflection of how the event content will support your practice. By the end of the workshop attendees will have:

- Increased awareness and knowledge of primary care and cancer matters
- Improved knowledge and understanding of early recognition and referral of symptoms of suspected cancer
- Up to date knowledge of CRUK and RCGP support focused on cancer prevention and early diagnosis.
