Feedback from the previous (2nd) Forum (23rd Oct 2019)

"Local updates and time to review case studies would be really useful."

"Breathlessness Management would be a good future topic for the Forum."

"Opportunity to work together as an STP at the next Forum would be great."

"An update on CQUINS would be great at the next Forum."

"Smoking effects so many conditions and this is clear to see within the shocking statistics presented. Definitely a priority area to work upon to improve many areas of health."

"The Forum provided the opportunity to learn about the importance of smoking cessation work in admissions. I will now go on to push this as part of our work."

"Useful National policy and drivers update."

"Great to have one topic explored at length rather than just touched on! Comfortable open room discussion."

"Good information given around the Hiding in Plain Sight and CURE studies."

"More time for discussions would be good."

"More PCN representation would be of benefit to the Forum."

"Further exploration of the missed opportunities during patient interactions."

"Clear agenda and good speakers."

"Very insightful smoking cessation information."

"More information on Smoking Cessation Services in our Region please."

"Spirometry, PCNs and Commissioning support would be really useful discussion points for the next Forum."

"A review of the ARTP deadline would be useful."

"Thank you all in all a great and very useful morning. Always feel reinvigorated by meeting up."

"Pulmonary Rehab updates would be valuable at the next Forum."

"A reminder to push the Very Brief Advice (VBA) model at every interaction."

"Smoking cessation would be a good topic to continue into the next Forum."

"Really sparked interested and help create ideas to take back."
