Linagliptin, <i>Trajenta</i> (Boehringer)	5mg	Available – no issues reported.
Sitagliptin, <i>Januvia</i> (MSD)	25mg 50mg 100mg	Available – no issues reported.

SGLT2 Inhibitors		
Drug, Brand, (Manufacturer)	Strength	Stock Availability
Canagliflozin, <i>Invokana</i> (Napp)	100mg 300mg	Available – no issues reported.
Dapagliflozin, <i>Forxiga</i> (AstraZeneca)	5mg 10mg	Available – no issues reported.
Empagliflozin, <i>Jardiance</i> (Boehringer)	10mg 25mg	Available – no issues reported.
Ertugliflozin, <i>Steglatro</i> (MSD)	5mg 15mg	Available – no issues reported.

Thiazolidinediones		
Drug, Brand, (Manufacturer)	Strength	Stock Availability
Pioglitazone <i>various brands and manufacturers</i>	15mg 30mg 45mg	Available – no issues reported.

GLP1 Agonists		
Drug, Brand, (Manufacturer)	Strength	Stock Availability
Dulaglutide, <i>Trulicity</i> (Eli Lilly)	0.75mg/0.5mL 1.5mg/0.5mL	Available – no issues reported.
Liraglutide, <i>Victoza</i> (NovoNordisk)	6mg/mL	Available – no issues reported.
Semaglutide, <i>Ozempic</i> (NovoNordisk)	0.25mg/0.19mL 0.5mg/0.37mL 1mg/0.74mL	Available – no issues reported.

Short-acting Insulins (including rapid-acting insulins)		
Brand, (Manufacturer)	Strength(s) and formulations	Stock Availability
Actrapid (<i>Novo Nordisk</i>)	100units/ml solution for injection 10ml vials	Available – no issues reported.
Apidra (<i>Sanofi</i>)	-100units/ml solution for injection 10ml vials -100units/ml solution for injection 3ml cartridges - 100units/ml solution for injection 3ml pre-filled Solostar pen	Available – no issues reported
Fiasp (<i>Novo Nordisk</i>)	-100units/ml solution for injection 10ml vials -FlexTouch 100 units/ml solution for injection 3ml pre-filled pen -Penfill 100units/ml solution for injection 3ml cartridges	Available – no issues reported.
Humalog (<i>Eli Lilly</i>)	-100units/ml solution for injection 10ml vials -100units/ml solution for injection 3ml cartridges -Junior KwikPen 100units/ml solution for injection 3ml pre-filled pen -KwikPen 100units/ml solution for injection 3ml pre-filled pen -KwikPen 200units/ml solution for injection 3ml pre-filled pen	Available – no issues reported.
Humulin S (<i>Eli Lilly</i>)	-100units/ml solution for injection 10ml vials -100units/ml solution for injection 3ml cartridges	Available – no issues reported.
Hypurin Porcine Neutral (<i>Wockhardt</i>)	-100units/ml solution for injection 10ml vials -100units/ml solution for injection 3ml cartridges	Available – no issues reported.
Insulin lispro (<i>Sanofi</i>)	-100units/ml solution for injection 10ml vials -100units/ml solution for injection 3ml cartridges - 100units/ml solution for injection 3ml pre-filled pen	Available – no issues reported
Insuman Infusat (<i>Sanofi</i>)	100units/ml solution for injection 3.15ml cartridges	Available – no issues reported
Insuman Rapid (<i>Sanofi</i>)	100units/ml solution for injection 3ml cartridges	Available – no issues reported
Novorapid (<i>Novo Nordisk</i>)	-100units/ml solution for injection 10ml vials -FlexPen 100 units/ml solution for injection 3ml pre-filled pen -FlexTouch 100 units/ml solution for injection 3ml pre-filled pen -Penfill 100units/ml solution for injection 3ml cartridges	Available – no issues reported.

Intermediate-acting Insulins		
Drug, Brand, (Manufacturer)	Strength(s) and formulation	Stock Availability
Humalog Mix25 (<i>Eli Lilly</i>)	-100units/ml suspension for injection 10ml vials -100units/ml suspension for injection 3ml cartridges -KwikPen 100units/ml suspension for injection 3ml pre-filled pen	Available – no issues reported.
Humalog Mix50 (<i>Eli Lilly</i>)	-100units/ml suspension for injection 3ml cartridges -KwikPen 100units/ml suspension for injection 3ml pre-filled pen	Available – no issues reported.
Humulin I (<i>Eli Lilly</i>)	-100 units/ml suspension for injection 10ml vials - 100 units/ml suspension for injection 3ml cartridges - KwikPen 100units/ml suspension for injection 3ml pre-filled pen	Available – no issues reported.
Humulin M3 (<i>Eli Lilly</i>)	-100 units/ml suspension for injection 10ml vials - 100 units/ml suspension for injection 3ml cartridges - KwikPen 100units/ml suspension for injection 3ml pre-filled pen	Available – no issues reported.
Hypurin Porcine Isophane (<i>Wockhardt</i>)	-100units/ml suspension for injection 10ml vials -100units/ml suspension for injection 3ml cartridges	Available – no issues reported.
Hypurin Porcine 30/70 Mix (<i>Wockhardt</i>)	-100 units/ml suspension for injection 10ml vials -100units/ml suspension for injection 3ml cartridges	Available – no issues reported.
Insulatard (<i>Novo Nordisk</i>)	-100units/ml suspension for injection 10ml vials -InnoLet 100units/ml suspension for injection 3ml pre-filled pen -Penfill 100units/ml suspension for injection 3ml cartridges	Available – no issues reported.
Insuman Basal (<i>Sanofi</i>)	-100units/ml suspension for injection 3ml cartridges	Available – no issues reported

	- 100units/ml suspension for injection 3ml pre-filled SoloStar pen -100units/ml suspension for injection 5ml vials	
Insuman Comb 25 (Sanofi)	-100units/ml suspension for injection 3ml cartridges -100units/ml suspension for injection 3ml pre-filled SoloStar pen	Available – no issues reported
Insuman Comb 50 (Sanofi)	-100units/ml suspension for injection 3ml cartridges	Available – no issues reported
NovoMix 30 (Novo Nordisk)	-100units/ml suspension for injection 3ml pre-filled pen -Penfill 100units/ml suspension for injection 3ml cartridges	Available – no issues reported.

Long-acting Insulins (including biphasic preparations)		
Drug, Brand, (Manufacturer)	Strength	Stock Availability
Abasaglar (Eli Lilly)	-100units/ml solution for injection 3ml cartridges	Available – no issues reported.
Lantus (Sanofi)	-100units/ml solution for injection 3ml cartridges -100units/ml solution for injection 3ml pre-filled SoloStar pen	Available – no issues reported
Levemir (Novo Nordisk)	-100units/ml solution for injection 3ml pre-filled pen -InnoLet 100units/ml solution for injection 3ml pre-filled pen -Penfill 100 units/ml solution for injection 3ml cartridges	Available – no issues reported.
Tresiba (Novo Nordisk)	-FlexTouch 100 units/ml solution for injection 3ml pre-filled pen -Penfill 100units/ml solution for injection 3ml cartridges -FlexTouch 200 units/ml solution for injection 3ml pre-filled pen	Available – no issues reported.
Semglee (Mylan)	-100units/ml solution for injection 3ml pre-filled pen	Available – no issues reported.
Suliqua (Sanofi)	-100units/ml / 33mcg/ml solution for injection 3ml pre-filled SoloStar pen -100units/ml / 50mcg/ml solution for injection 3ml pre-filled SoloStar Pen	Available – no issues reported

Toujeo (Sanofi)	-300units/ml solution for injection 1.5ml pre-filled SoloStar Pen - 300 units/ml solution for injection 3ml pre-filled DoubleStar Pen	Available – no issues reported
Xultophy (Novo Nordisk)	-100units/ml / 3.6mg/ml solution for injection 3ml pre-filled pen	Available – no issues reported.

Disclaimer: *This memo can be adapted for local use. The content does not reflect national guidance. Some of this memo is based on **clinical opinion** from practitioners. Users should bear this in mind in deciding whether to base their policy on this document. Individual trusts should ensure that procedures for unlicensed medicines are followed where a foreign import drug is required in the interim. Any decision to prescribe off-label must take into account the relevant GMC guidance and NHS Trust governance procedures for unlicensed medicines. Prescribers are advised to pay particular attention to the risks associated with using unlicensed medicines or using a licensed medicine off-label. Unlicensed medicines: In line with GMC guidance you should usually prescribe licensed medicines in accordance with the terms of their license. However, you may prescribe unlicensed medicines, where, on the basis of assessment of the individual patient, you conclude, for medical reasons, that it is necessary to do so to meet the specific needs of the patient. Prescribing unlicensed medicines may be necessary where there is no suitably licensed medicine that will meet the patient's needs. For example, where a suitably licensed medicine that would meet the patient's need is not available. This may arise where, for example, there is a temporary shortage in supply. As with all prescribing, the prescriber is medically and legally responsible for the prescriptions they sign and for their decisions and actions when they supply and administer medicines or authorise or instruct others to do so.*
