THE PRIMARY CARE RESPIRATORY ACADEMY

Launched in 2016, The Primary Care Respiratory Academy is an overarching educational initiative aiming to improve respiratory care through learning and sharing of the best practice.

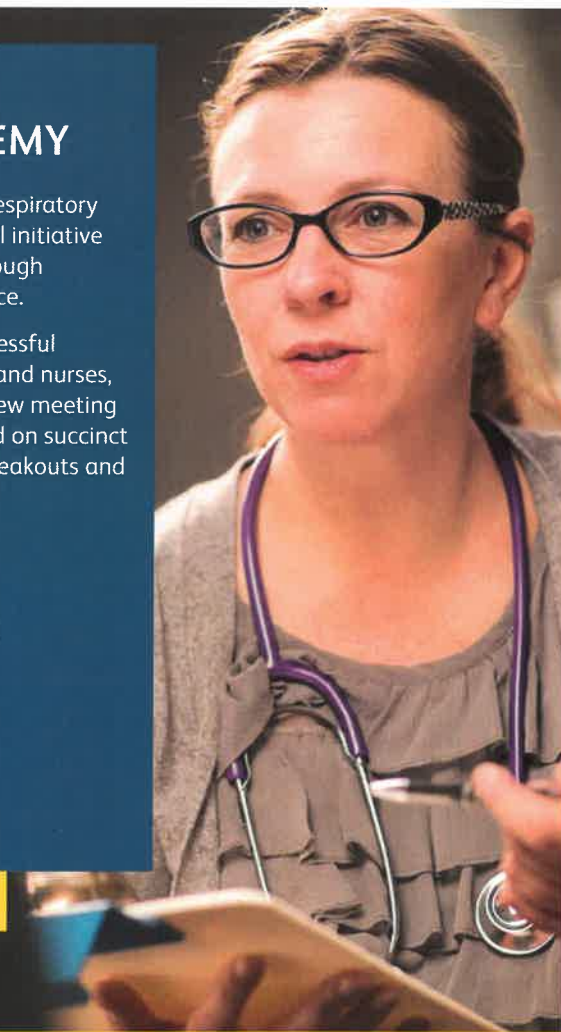

Continuing from last year's highly successful roadshow, attended by over 1400 GPs and nurses, we are pleased to announce a brand-new meeting series for 2017. Emphasis will be placed on succinct presentations, facilitated case study breakouts and lots of time set aside for feedback.

CURRENTLY AVAILABLE MODULES

- Childhood wheeze
- Supported asthma self-management
- Acute exacerbations of COPD
- Spirometry
- Smoking cessation
