

**New Neurophysiology Service @ Peterborough City Hospital**  
**Communication Update to GPs - 27.02.2020**

**The Neurophysiology Service Provision**

Nerve Conduction Studies (NCS) testing for:

- Carpal Tunnel Syndrome (CTS)
- Ulnar neuropathies

(Additional more complex neurophysiology services are available, but will require referral to a specialist consultant who will then refer to the new Neurophysiology Service).

**New Information of the Referral Pathway**

Please be advised that NWAFT has reopened ERS from 28 February 2020 for referrers who are unable to access ICE.

The Neurophysiology Pro-forma is required to be completed via a hyperlink on ERS.

**Please note ICE is the preferred pathway for referrals (if available)**
